SUMMARY

As a manager who can lead various programs and operations to support and enhance the efficiency of engineering activities, I enjoy driving process improvements and cross-team collaboration to align businesses with industry-standard practices and automation tools.

I am seeking a full time role as a technical project manager or implementation manager. I am open to exploring product management positions with the right team.

I currently freelance digital services such as content creation and web development, successfully reaching client goals since 2021.

PAST WORK EXPERIENCE

- Destini.co - SPINS LLC** 2018-2021
Lead SaaS Implementation Manager
 - Planned and executed product launches, product updates, and implementation strategies for CPG brands
- EyeQ VR** 2015-2018
Product Manager - Virtual Reality
 - Successfully managed product cycle from concept to launch for a new VR/AR product for K-12 Schools.
- Beasley Broadcasting Las Vegas** 2011 - 2012
Digital Marketing - Webmaster
 - Successfully developed and implemented digital marketing campaigns across a variety of media channels to drive growth and customer engagement.
- MJNA Inc.** 2010 - 2011
PHP Developer - WordPress
- Miva Merchant** 2009 - 2010
Full Stack Developer - JSX
- MySpace** 2008 - 2009
Graphic Designer
